1 I, Annabelle de St. Maurice, M.D., M.P.H., declare as follows:

2 1. I provide this declaration in support of Defendants The Regents of the
3 University of California and President Michael V. Drake's ("Defendants")
4 Opposition to Plaintiff's Motion for Preliminary Injunction. I base this declaration
5 on my expertise as outlined below and facts within my personal knowledge, to
6 which I could and would testify competently if called upon to do so.

7 2. I am a fully licensed Pediatrician who is board certified in Pediatrics
8 and Pediatric Infectious Diseases. I completed my residency training in Pediatrics at
9 the University of Pittsburgh Medical Center/Children's Hospital of Pittsburgh and
10 completed a fellowship in Pediatric Infectious Diseases at Vanderbilt
11 University/Monroe Carell Jr. Children's Hospital. During my Pediatric Infectious
12 Diseases fellowship, I also received my Masters in Public Health. Following
13 fellowship, I was selected to be an Epidemic Intelligence Service officer in the
14 Viral Special Pathogens branch within the Division of High Consequence
15 Pathogens at the Centers for Disease Control and Prevention.

16 3. Since 2017 I have been an Assistant Professor of Pediatric Infectious
17 Diseases at the University of California Los Angeles (UCLA), David Geffen
18 School of Medicine. In this role I take care of patients with infectious diseases and
19 also serve as the Co-Chief Infection Prevention Officer for UCLA Health. During
20 the COVID-19 pandemic, I have developed evidence-based hospital and campus
21 policies and procedures to prevent transmission of SARS-CoV-2 (the virus that
22 causes COVID-19). In addition to my clinical and administrative responsibilities I
23 am engaged in clinical and public health research focused on reducing the
24 transmission of infectious diseases. I have a strong research interest in vaccines and
25 vaccine safety and have published peer-reviewed papers on the subjects of infection
26 prevention, vaccine efficacy, vaccine safety, and vaccine hesitancy. A true and
27 correct copy of my curriculum vitae is attached as **Exhibit A**.

28 4. I have served in Infection Prevention leadership roles both inside and

1 outside of UCLA Health during the COVID-19 pandemic. At UCLA I serve on the
2 Infection Control Committee for Ronald Reagan and Santa Monica hospital and
3 chair the Infection Control Committee for the Neuropsychiatric hospital. I have
4 taught courses at the Infection Prevention Leadership Academy at UCLA. I am an
5 active member of the UCLA campus Infection Control Working Group which
6 advises the campus on best practices around COVID-19. I have been an active
7 member of the UC Health Infection Prevention Collaborative which is a multi-
8 disciplinary group comprised of all the UC Health campuses. Our group discusses
9 effective measures for preventing COVID-19 infection at UC facilities, including
10 medical centers and provides guidance to UC leadership on Infection Prevention
11 guidelines for the entire UC system. I have also served as a consultant for
12 community groups on COVID-19 measures, including the Los Angeles Lakers.

13 5. I have reviewed the final UC Policy requiring that members of the UC
14 community must be vaccinated against COVID-19 as a condition of their physical
15 access to campus facilities (“UC Policy”), issued on July 15, 2021, that is the
16 subject of this action.

17 6. I am in full support of the critical value and essential need for the UC
18 Policy and believe that it should apply to individuals who have previously been
19 diagnosed with COVID-19 but are no longer receiving treatment and are no longer
20 infectious. As an expert in Infection Prevention, I can attest that COVID-19
21 vaccination is the most effective way of assuring a safe campus and workplace for
22 UC’s many thousands of workers, students, volunteers, and healthcare
23 professionals. The COVID-19 vaccines are remarkably safe and effective, and
24 vaccinations, including for those individuals who have been previously diagnosed
25 with COVID-19, improve the health and safety of all members of the community.

26 7. The transmission of SARS-CoV-2 in communities has significantly
27 impacted the U.S. healthcare system. Future surges of COVID-19 and emerging
28 variants of concern are a threat to the level of care that can be provided at

1 healthcare facilities, including UC Health Medical Centers. The SARS-CoV-2
2 virus can lead to severe illness including hospitalization and death and can also
3 have long term symptoms on those who recover from acute illness. These
4 symptoms include, but are not limited to, respiratory issues, fatigue, joint and
5 muscle pain, and difficulty with concentration.

6 8. In order to protect our healthcare workforce, patients, and community
7 during the COVID-19 pandemic, we have instituted Infection Prevention policies
8 for doctors, staff, and patients aimed at reducing transmission within healthcare
9 facilities. It is crucial that we ensure that all our staff is vaccinated in order to
10 prevent transmission between patients and healthcare workers, allowing us to
11 promote a healthy, stable workforce. Protecting the health of our workforce and
12 preventing the need for individuals to quarantine due to exposure to SARS-CoV-2
13 is critical to maintaining appropriate staffing in healthcare facilities and providing a
14 safe work environment and safe patient care.

15 9. Vaccination of healthcare workers is also important to protect patients
16 who are especially vulnerable to severe COVID-19 disease, including
17 immunocompromised patients who may not have adequate response to
18 immunizations and children under 12 years of age who are not yet eligible for
19 immunization. When there are safe, effective vaccines to help prevent the spread of
20 a pandemic disease, physicians have an ethical duty to become immunized.

21 I declare under penalty of perjury under the laws of the United States of
22 America that the foregoing is true and correct.

23 Executed this 2 day of September 2021 at Los Angeles, California.

EDUCATION

Undergraduate: 1999-2003 Washington University in St. Louis, St. Louis, MO
Bachelor of Arts *cum laude*
Major: Biology; Minor: French

Graduate: 2004-2008 University of Rochester School of Medicine
Rochester, NY
Doctorate of Medicine

Post doctoral: 2008-2011 Children's Hospital of Pittsburgh of the University of Pittsburgh Medical Center
Pittsburgh, PA
Internship and Residency, Pediatrics

2012-2015 Vanderbilt University Medical Center/Monroe Carell Jr. Children's Hospital
Nashville, TN
Clinical Fellow, Pediatric Infectious Diseases

2013-2015 Vanderbilt University School of Medicine, Nashville, TN
Masters of Public Health Program

2015-2017 Centers for Disease Control and Prevention (CDC), Atlanta, GA
Epidemic Intelligence Service Officer

LICENSURE

Medical Board of California A149993
Tennessee Board of Medical Examiners MD48680 (Expired)
Pennsylvania State Board of Medicine MD443080 (Expired)

BOARD CERTIFICATION

American Board of Pediatrics, General Pediatrics 10/10/2011 ABP#1008022
American Board of Pediatrics, Infectious Diseases 11/11/2015 ABP#1008022

PROFESSIONAL EXPERIENCE

2000-2003 *Student Life* newspaper reporter and online editor
Washington University in St. Louis, St. Louis, MO.

2000-2003 Research technician
Department of Biology, Washington University in St. Louis, St. Louis, MO.

2003-2004	Research technician Department of Ecology, Washington University in St. Louis, St. Louis, MO.
2011-2012	Primary care/ Urgent care physician Children's Community Pediatrics, Pittsburgh, PA.
2014-2015	After-hours care physician Vanderbilt University Medical Center/Monroe Carell Jr. Children's Hospital, Nashville, TN
2017-present	Assistant Clinical Professor of Pediatric Infectious Diseases Associate Medical Director Antibiotic Stewardship Program Co-Chief Infection Prevention Officer (2019-present) University of California Los Angeles (UCLA) Medical Center
2020-present	Los Angeles Lakers Infectious Disease Consultant Los Angeles, CA
2020-2021	Resilience Health Advisory Board
2020-present	Entertainment Partners Infectious Disease Consultant Los Angeles, CA

PROFESSIONAL ACTIVITIES

Institutional Service

2008-2011	Children's Hospital of Pittsburgh Delegate to the American Academy of Pediatrics
2008-2011	Community Oriented Resident Experience member Children's Hospital of Pittsburgh
2010-2011	Community Oriented Resident Experience (CORE) leader Children's Hospital of Pittsburgh, Responsibilities included: <ul style="list-style-type: none">• Organizing monthly training sessions for CORE residents on public health and advocacy topics• Organizing guest lectures and site visits for training sessions
2013-2015	Coordinator, Pediatric Infectious Disease Fellows Didactic Series, Vanderbilt University Medical Center
