The Nation's First Health Department

The Boston Public Health Commission, the country's oldest health department, is an independent public agency providing a wide range of health services and programs. It is governed by a seven-member board of health appointed by the [Mayor of Boston](#).

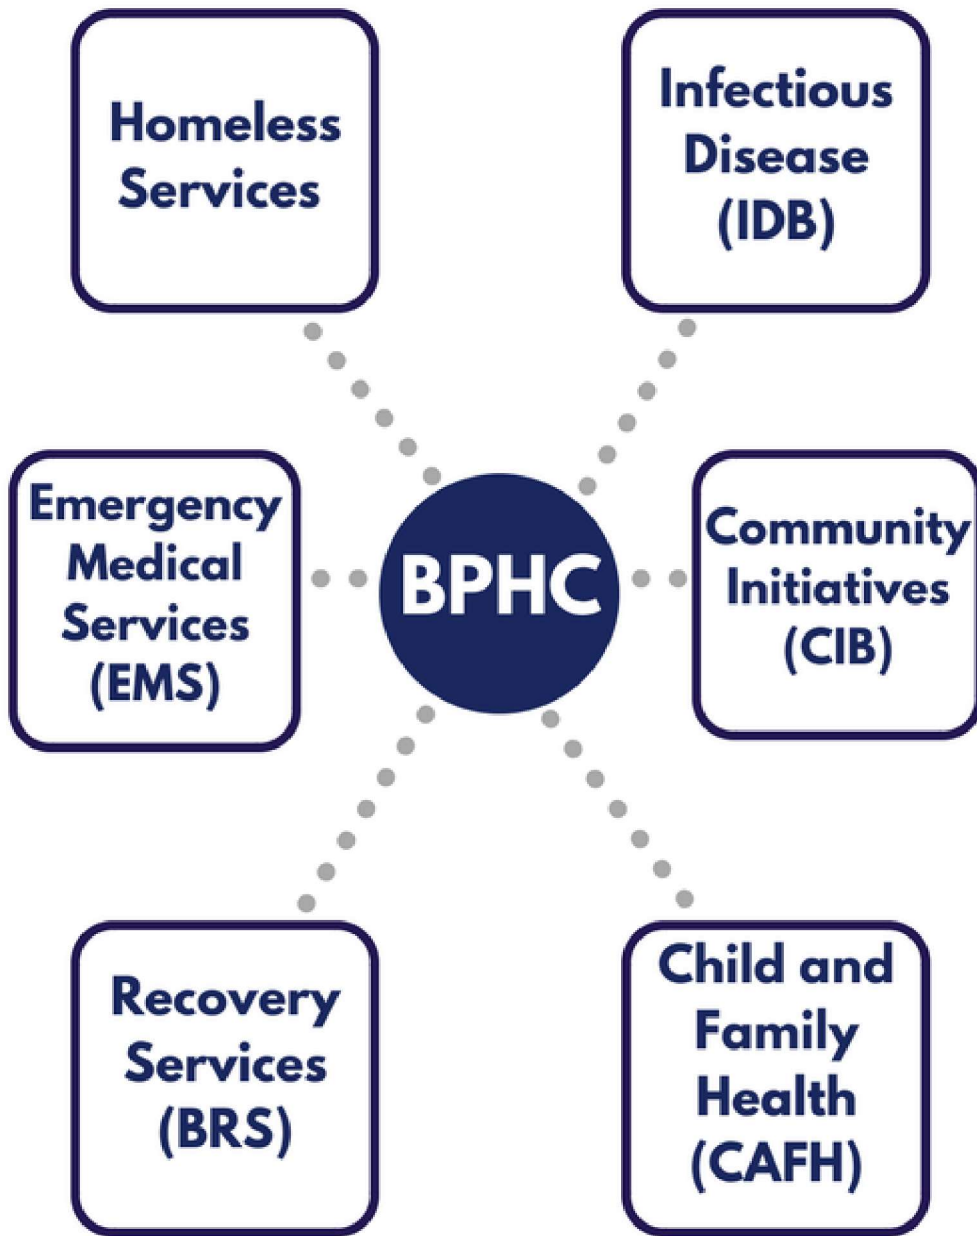

Public service and access to quality health care are the cornerstones of our mission - to protect, preserve, and promote the health and well-being of all Boston residents, particularly those who are most vulnerable. The Commission's more than **40 programs** are grouped into **six bureaus**: Child, Adolescent & Family Health; Community Health Initiatives; Homeless Services; Infectious Disease; Recovery Services; and Emergency Medical Services. **An organizational chart can be found [here](#).**
