CAUSE AND EFFECT

Waxahachie, Texas. 75165

Penn Jones Jr, Newsletter, Continuing Inquiry, Route 3, Box 356, First researcher to call attention to, chart out deaths of important witnesses to the assassination of President John F. Kennedy. Four Volumes of books, Forgive My Grief, I, II, III, IV.

Following deaths caused by conspiracies, or during investigations, many of the important persons with information are suddenly killed. The Italian P-2 Scandal, with webs touching every major bank that has funded Hitler's Fourth Reich since 1943, reaches from the Pope to actors in Hollywood, the gambling syndicate, university professors, NASA, the defense industry, and every aspect of their connections.

No chain is more important than every single link. When the links come apart, the effort to tie them together is soldered with blood, but blood and murders will not hold. They are not soldering paste.
